About our shops.

The Shopkeepers of Historic Seville Association welcomes you to our district. Our members place emphasis on quality merchandise and craftsmanship in tandem with old-fashioned personal service. Members serve the community as well as the thousands of tourists annually who appreciate fine shops, galleries, and restaurants. Most are located in restored, privately-owned 18th and 19th century cottages and mansions. Seville Square, the heart of the historic district, is a public park and the setting for festivals, art shows, and other events throughout the year. Parking in this unique cultural and shopping area is unrestricted on most streets. In addition to the buildings housing member shops appearing on this map, there are many other restored structures not shown containing offices and private residences.

A little history about Seville and Pensacola.

Spanish colonists in 1752 established Pensacola as a permanent settlement near present-day Seville Square. Three earlier attempts had been made to colonize this area. The first settlement in 1559, which pre-dated the establishment of St. Augustine, Florida, was in the vicinity of Fort Barrancas, now a part of the Gulf Islands National Seashore. A second, strictly military occupation of that same area occurred in 1698, and in 1722, after a short period of occupation by and skirmishing with the French, the Spanish established a third settlement on Santa Rosa Island, near Fort Pickens. A hurricane destroyed this settlement in 1752, and the survivors moved to the mainland to an outpost called Fort San Miguel.

After the French and Indian War in 1763, the British took West Florida and occupied the crude stockade at "Panzacola". British surveyors in the early 1770s platted the Old City area and delineated the basic street system used today in the Historic District. Many of the lots in this area had corresponding garden lots located along present-day Garden Street.

After Bernardo de Galvez defeated the British in 1781, the Spaniards returned to Pensacola. The British stockade that covered the area between Seville Square and Plaza Ferdinand VII gradually deteriorated. When Andrew Jackson made his controversial forays into Spanish Florida against "runaway slaves and renegade Indians," he occupied Pensacola in 1814 and again in 1818. In 1921 Jackson accepted Florida from Spain in ceremonies in Plaza Ferdinand.

During the Civil War, Union soldiers rode their horses across Seville Square, and most of the homes facing the square were built during the decades after the conflict.

Historical and civic groups as well as private investors are participating in the restoration of old structures in the Pensacola Historical District. The Architectural Review Board of the City of Pensacola must approve exterior modifications of existing structures, construction of new buildings, or destruction of an old house or outbuilding. The Historic Pensacola Preservation Board, a state agency established in 1967, provides leadership in the development of an overall restoration program for the district.

ASSISTANT DISTRICT COORDINATOR'S REPORT - MAY 1984 -
OCTOBER 1984

Dear Family of God,

I praise God for this year of serving you as your Assistant District Coordinator. It is such a blessing to me to have a little part in God's great move in this District.

In May I had the pleasure of sharing the Word in worship in Key West with a congregation that continues to "hang in there" and work hard. Thanks to Jerry F. for the always loving and generous hospitality to me and the others who visited Key West M.C.C. to share with them while they were without a pastor.

In July I was invited to West Palm M.C.C. to be a part of a panel of judges at their Talent Show. It was a wonderful show with so much variety and good, God-given talent. Rev. Bigelow is blessed with a smiling, happy, loving, outgoing group that is surely doing the Lord's work in West Palm Beach.

In August the District officers met to plan this Fall Conference. These meetings that Rev. Carlton initiated are a time when goal-exploring, idea-sharing, and conference planning are done. I feel that they provide an opportunity for unity of purpose that we might otherwise not have.

Also in August I shared the Word in worship with Miami M.C.C. I always enjoy preaching in Miami...the people are responsive and appreciative. Rev. Green has additional office space and the church continues to move out in new directions. The new computer will be a great help to the ministry there.

This past six months I have had more opportunities to share by phone and letter with the other pastors in the District. I completed the A.C.T.+S. program typing and have sent copies to all the churches in this District.

Praise God for the new people that the Holy Spirit is directing to South Florida to lead the churches and the great work that is being done. I am as near as a call or letter and would be happy to come and share with your church. I have had to pass up the opportunity of visiting several places because of too short a notice conflicting with my own pastoral duties.....so, if you are able to plan ahead a bit, then I can too!!!

God bless each of you...you're doing a great job!!!

In Christ's Service,

Rev. Frankye A. White

84 Fall Report of the District Coordinator To The General Assembly, Southeast District UFMCC

Dear Family of God,

The past months since our Spring Conference in Fort Myers have brought many positive changes to our District. When we last met, four of our congregations were without pastors and attendances were down in several of our churches. I'm happy to report that all these churches now have pastors and all of congregations have leadership. As well we have seen a significant increase in the total membership of churches in our District.

At this conference two missions will apply for Chartered Church status and one Study Group is requesting recognition as a Mission.

Our fourteenth congregation, MCC Ft. Walton Beach, under the direction of Deacon Terry Douglas is becoming financially secure to the point where they are prepared to begin seeking a Pastor. Their outreach into Panama City has influenced persons there to request that a feasibility study be recognized in this second largest metropolitan area of the panhandle. A place of worship and meeting has already been made available.

The District office has also responded to requests from the Merrit Island-Melbourne area for information regarding the establishment of an MCC along the Space Coast.

Student clergy, Terry Henely of Ft. Myers was appointed last July to do a feasibility study for the District in Naples and is presently conducting a weekly Bible Study and rap there which is attended by fifteen and more persons. The group there is considering a possible request for Study Group recognition after the first of the year.

MCC worship services, attended by six to twelve people are being conducted each Sunday in Perry. A Wednesday night Bible study draws the same numbers of participants and the Seventh Day Advent Church has made their facilities available for a meeting place.

As well, King of Peace MCC in St. Petersburg has responded to church extension vision and set as one of its many new goals; the establishment of a second congregation in their county.

Praise God! From thirteen congregations just a year ago we now have seventeen MCC groups meeting and worshiping God each week in our District.

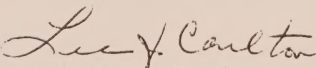

I'm also happy to report that all our congregations have been visited personally by the District Coordinator. Some of our smaller churches have received multiple visits and some congregations have been blessed by visits of other District Officers as well.

None of this could have been possible however without the faithful support of our District work by all our congregations, large and small, and for this I am most grateful. I believe this will be the first time in a long time that we approach a District Conference with all our churches paid up to date with their tithes.

God has blessed us with an increase in the quality of Pastoral and lay leadership and I hope to see this trend continue. Although I do not personally know all the valuable lay leaders in our church there are a few who really were blessings to their congregations during pastoral vacancies and I would like to thank Jerry Frantz for his enthusiasm and hard work in Key West, Allan Rodgers and the committee in Gainsville, Kendall in Tampa and Terry Dean in Sarasota. My grateful appreciation also needs to be offered to the members of the clergy who remembered Michael and I in our time of need.

It has been my joy to serve you all during my first year as D.C. I think you can clearly see the progress we have made together. We continue however to have a great challenge before us. Last years population growth in our state brought us to the sixth largest in the Union and predictions now call for Florida to rank fourth by the year 2,000. It seems our work will be cut out for us in the future. I trust that our coming year will see the strengthening of our present efforts and the continued formation of new works. I would offer our District my old challenge, "let's double the size of our churches and the number of churches in Florida". This is a realistic and worthy goal for Christ. Let's unite women and men everywhere in and by God's love.

PEACE! Christ Jesus is leading us.

GUIDELINES FOR RECOMMENDED MINIMUM STANDARDS FOR CHARTER, MISSION
and STUDY GROUP STATUS within the UFMCC

These guidelines for recommended minimum standards are provided by the Board of Home Missions to facilitate discussion between that Board, the District Coordinator and local congregations about the level of performance of congregations within the Southeast District. These guidelines are not written in stone. It is acknowledged that local conditions vary, and in the spirit of By-Laws, Article VI, Paragraph B., the Board of Home Missions may recommend to the Board of Elders a change in status in groups that do not meet these standards, when sufficient time and effort have elapsed and there is proven stability.

These minimum standards are, however, seen as minimal performance levels and not as ideal situations. These guidelines are based on the historical performance averages and the average spiritual growth levels of groups already existant (1982-1984) within the Southeast District.

Petition for either Mission or Church Chartering status should be in triplicate with the District Coordinator on Form UFMCC D-009 (3 pages) with all items requested on the third page attached.

In addition to answering items 5 & 6 on page two of Form D-009 (What do your outreach programs and activities include?) briefly describe the division of responsibilities between the Worship Coordinator/Interim Pastor and the members of the Board of Directors. The church should be prepared to discuss its spiritual and community profile.

I. SPIRITUAL PROFILE

Consideration should be given to the way in which the community and city in which you are located views you as a Christian Church.

- A. Unity of the Spirit, a working together.
- B. A concern for our brothers and sisters, both members and nonmembers.
- C. A Christian concern in all areas, not only homosexual.
- D. Reach a level of consistency in spirituality where we are a support to each other and a light to others.

II. COMMUNITY PROFILE

Consideration should be given to the sense of community, i.e. "Family of Faith" which exists in how we relate to each other.

- A. Of those who have signed the petition, how many attend on a regular basis?
 - 1. Of those who have signed the petition, how many show regular financial support? Have made faith pledges and are keeping them?
 - 2. In Missions asking for Chartered Church status, have 35 of the signators made faith pledges, and are they keeping them?

- B. Does at least 51% of our members show emotional stability and firm commitments to self, job, responsibilities, relationships with friends, lovers, church, etc... ?
- C. How do those who observe our work see our dedication to the cause ?

III. FINANCIAL PROFILE

The financial profile for groups seeking to become Missions or Chartered Churches is given in the budget to be attached to form D-009 and in item 7 on page two of the same form (Specify the extent of your current financial support of the Worship Coordinator/Pastor/Interim Pastor, i.e.: salary, insurance, allowances, conferences, fees, etc.) The below guidelines should help groups assess themselves.

STUDY GROUPS

- A. The Worship Coordinator is to receive half of the weekly general offerings up to \$75 per week.
- B. The group should try to provide health insurance.
- C. Conference and local (telephone, stamps, etc.) expenses should be paid, if possible.

NOTE: The above rule is to assure that Worship Coordinators will receive some compensation. Study Groups should seek to form a budget as soon as a pattern of giving is established and should raise compensation for its Worship Coordinator in steps until it is performing at Mission status level.

MISSION STATUS

- A. Be located in an adequate worship facility and be able to bear the expenses incurred.
- B. Be able to support outreach (newsletter, office operation, social program, etc.)
- C. Pastor / Worship Coordinator:
 - 1. The package should be at least the equivalent of \$150 per week.
 - 2. The package may split compensation between housing and salary.
 - 3. The church should provide health insurance in addition to above.
 - 4. The church should provide phone expenses (monthly and long distance).
 - 5. The church should provide conference expenses.
 - 6. The church should add other items as possible (car allowance, etc.).

CHARTER CHURCH STATUS

- A. Building Expenses
- B. Outreach Expenses
- C. Full time Pastor
 - 1. The package should include at least the equivalent of \$250 per wk.
 - 2. Package may split compensation between housing and salary.
 - 3. The church should provide health insurance in addition.
 - 4. The church should in addition provide phone expenses (office and home).
 - 5. The church should provide conference expenses.
 - 6. A contract between the Board of Directors and Pastor should be presented to the congregation and accepted by the Pastor to include vacation & sick time, not to include conferences.
 - 7. There should be a regular day or two off each week with consideration of some weekends off on a regular basis.

D. Special Funds:

1. Deacons' fund
2. Building fund

NOTE: ALL groups are expected to be up to date on all tithes to the District and to the U.F.M.C.C.

NOTE: In Chartered Churches, the upward scale of pastoral support offered in the UFMCC is \$15,000+ per year. Moderate size churches (100 members or less) offer, on an average, \$11,000 - 12,000 per year to pastors. This should be kept in mind; in churches where the performance is the minimum or less, some system of step increases should be planned.

84 Fall Report of the District Coordinator To The General Assembly, Southeast District UFMCC

Dear Family of God,

The past months since our Spring Conference in Fort Myers have brought many positive changes to our District. When we last met, four of our congregations were without pastors and attendances were down in several of our churches. I'm happy to report that all these churches now have pastors and all of congregations have leadership. As well we have seen a significant increase in the total membership of churches in our District.

At this conference two missions will apply for Chartered Church status and one Study Group is requesting recognition as a Mission.

Our fourteenth congregation, MCC Ft. Walton Beach, under the direction of Deacon Terry Douglas is becoming financially secure to the point where they are prepared to begin seeking a Pastor. Their outreach into Panama City has influenced persons there to request that a feasibility study be recognized in this second largest metropolitan area of the panhandle. A place of worship and meeting has already been made available.

The District office has also responded to requests from the Merrit Island-Melbourne area for information regarding the establishment of an MCC along the Space Coast.

Student clergy, Terry Henely of Ft. Myers was appointed last July to do a feasibility study for the District in Naples and is presently conducting a weekly Bible Study and rap there which is attended by fifteen and more persons. The group there is considering a possible request for Study Group recognition after the first of the year.

MCC worship services, attended by six to twelve people are being conducted each Sunday in Perry. A Wednesday night Bible study draws the same numbers of participants and the Seventh Day Advent Church has made their facilities available for a meeting place.

As well, King of Peace MCC in St. Petersburg has responded to church extension vision and set as one of its many new goals; the establishment of a second congregation in their county.

Praise God! From thirteen congregations just a year ago we now have seventeen MCC groups meeting and worshipping God each week in our District.

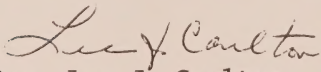

I'm also happy to report that all our congregations have been visited personally by the District Coordinator. Some of our smaller churches have received multiple visits and some congregations have been blessed by visits of other District Officers as well.

None of this could have been possible however without the faithful support of our District work by all our congregations, large and small, and for this I am most grateful. I believe this will be the first time in a long time that we approach a District Conference with all our churches paid up to date with their tithes.

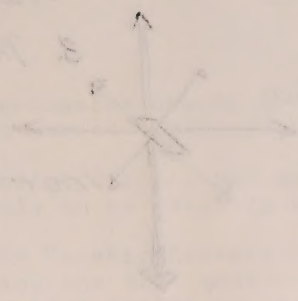

God has blessed us with an increase in the quality of Pastoral and lay leadership and I hope to see this trend continue. Although I do not personally know all the valuable lay leaders in our church there are a few who really were blessings to their congregations during pastoral vacancies and I would like to thank Jerry Frantz for his enthusiasm and hard work in Key West, Allan Rodgers and the committee in Gainesville, Kendall in Tampa and Terry Dean in Sarasota. My grateful appreciation also needs to be offered to the members of the clergy who remembered Michael and I in our time of need.

It has been my joy to serve you all during my first year as D.C. I think you can clearly see the progress we have made together. We continue however to have a great challenge before us. Last years population growth in our state brought us to the sixth largest in the Union and predictions now call for Florida to rank fourth by the year 2,000. It seems our work will be cut out for us in the future. I trust that our coming year will see the strengthening of our present efforts and the continued formation of new works. I would offer our District my old challenge, "let's double the size of our churches and the number of churches in Florida". This is a realistic and worthy goal for Christ. Let's unite women and men everywhere in and by God's love.

PEACE! Christ Jesus is leading us.

Rev. Lee J. Carlton

SUGGESTIONS FOR DEFINING THE ROLE OF THE WORSHIP COORDINATOR
IN A CHARTERED CHURCH

1. The Worship Coordinator should be elected by the congregation upon recommendation of the Board of Directors.
2. Should the District Coordinator be involved in this selection it should be only in an advisory manner.
3. In selecting the Worship Coordinator, consideration should be given to choosing the best qualified person. That person may not necessarily be a member of the Pastoral Staff.
4. The Worship Coordinator should assume all of the duties expected of the Pastor unless an agreement stating otherwise is reached prior to the election of the person to the position of Worship Coordinator.
5. The Worship Coordinator is responsible for seeing that the work of the church is carried out in a routine manner. Other people should be delegated to assume tasks that the Worship Coordinator does not feel qualified to do.
6. The Worship Coordinator is the Pastoral representative of the Congregation at all local, district, and national functions.
7. The Worship Coordinator should not serve as the chairperson of the pulpit committee to avoid a possible "conflict of interest." (Example: A Worship Coordinator who is paid may not want to relinquish their position; one who is not paid may not wish to give up their "power.")

These suggestions are submitted in hope that they might help Chartered Churches in our District deal more effectively with the difficulties that arise in the absence of Pastoral leadership. Additionally, they may make the selection of the Worship Coordinator and the defining of his/her role easier for the Board of Directors and Congregation.

In God's Service,

Rev. Dr. Fred C. Williams
Rev. James T. Brock
Rev. Frankye A. White

UNITED IN & BY GOD'S LOVE

SOUTHEAST DISTRICT CONFERENCE PENSACOLA, NOV. 2-4

This is a follow-up to the report I gave at Spring Conference on the money that is apparently missing. I am sorry to report that I have made no head way on finding same.

As was suggested, I have contacted the State Banking Commission in Tallahassee and they were of no help in this matter. They keep no records of depositors and further had no advice on what to do about finding a missing account if in fact such an account exists.

I also got copies of the missing savings account statements from the bank and have attached copies of two of them. The ✓ marks are to mark withdrawals that are unaccounted for. They were not deposited in the checking account nor were there any receipts for cash payments for these amounts on or near the dates of withdrawal.

I have also attached copies of two annual financial reports, one from 1982 and one from 1983. If you look under INCOME - interest on savings account on both reports you will see that the figures are exactly the same, to the penny. This is all most impossible for this to happen.

My conclusion is, I am sorry to say, that money was withdrawn from this savings account during 1982 and is not accounted for and apparently an attempt has been made to cover it up. I do not think that there is any missing account. Unless something surfaces to shed new light on this subject I will not be pursuing it any further.
